

Business Lab

Business lab has been established to promote the research environment. The lab is utilized by MBA students, research scholars and faculty members. It was established in year 2014. The lab is equipped with SPSS and AMOS software for data analysis. Lab is having 20 computers. Open office software is installed on all PCs in the lab. The same is used for word processing, Excel work and for preparing Power Point Presentations. Software's installed in lab help users in becoming technology savvy and also help in developing data analysis and problem-solving skills among students and research scholars.
