

1	Name of Activity	Lecture on तंत्रयुक्ति : Ancient Indian method of Thesis Construction by Prof. Pradeep Dimri
2	Type of Activity (FDP/Lecture/Technical/conference etc.)	Colloquium
3	Name of Department/Section/Cell conducting the Activity	Research & Development Cell
4	In coordination with (if any)	N.A.
5	Date of Conduct	15.03.2023
6	Name of the Activity Coordinator(s)	Dr. Sonia
7	Amount Spent	Rs. 3000/-
8	Funding/grant from University/Industry/UGC/AICTE/DST/TEQIP/Outside Society/agency/others (Mention)	R & D Cell, J.C. Bose University of Science and Technology, YMCA Faridabad
9	Target audience	Students, Ph.D. Scholars
10	No. of beneficiaries	220
11	Name of Outside Guests	Nil
12	Any other information	Appended below
13	Also attach two/three good quality photographs	enclosed

Report

The Research and Development Cell of J.C. Bose University of Science and Technology, YMCA, Faridabad has been organizing a colloquium series on various Research topics under the guidance of Vice Chancellor Prof. S. K. Tomar. As a part of the colloquium series, Prof. Pradeep Dimri, Chairperson of Electronics Engineering delivered a lecture on the topic “तंत्रयुक्ति : Ancient Indian method of Thesis Construction’ on 15.03.2023. The colloquium was conducted by Dr. Sonia Bansal and Dr. Rewa Sharma, Event Coordinators of R&D Cell. Prof. Naresh Chauhan, Director (R&D), and other faculty members were present at the event. Dr. Dimri presented Sanskrit literature which is one of the most ancient literature considered by the critics of all times. He described the lesser-known fact about the ancient methodology or a manual in place, for the construction of scientific and theoretical texts in India. It is the doctrine of Tantrayukti. To better understand the intricacies in śāstras, one should be well versed in 'Tantrayuktis'. Tantrayuktis are controlling guidelines for a treatise. They provide the system of the framework of theory and its practical application. Application of yuktis shows that in the context of Sanskrit literature, superior kind of research methods were followed in the ancient Indian textual tradition. It can be said that this research method (of yuktis) can be extended and applied to any text belonging to any philosophical school. It is the responsibility of the scholars to expose such significant concepts stored in the treasure house of rich Sanskrit literature. In the lecture, devices of Yukti, Tantra Guna, and Tantra Dosha were deliberated upon. The event was well attended by the Research Scholars, PG and UG students.
