## Green Landscaping with Trees and Plants

As per the green practices followed in the campus, JCBoseUST is consistently contributing towards planting more trees within and outside the campus. Herbal plants, fruit bearing trees, flowering plants and ornamental plants have been planted to clean the atmosphere.

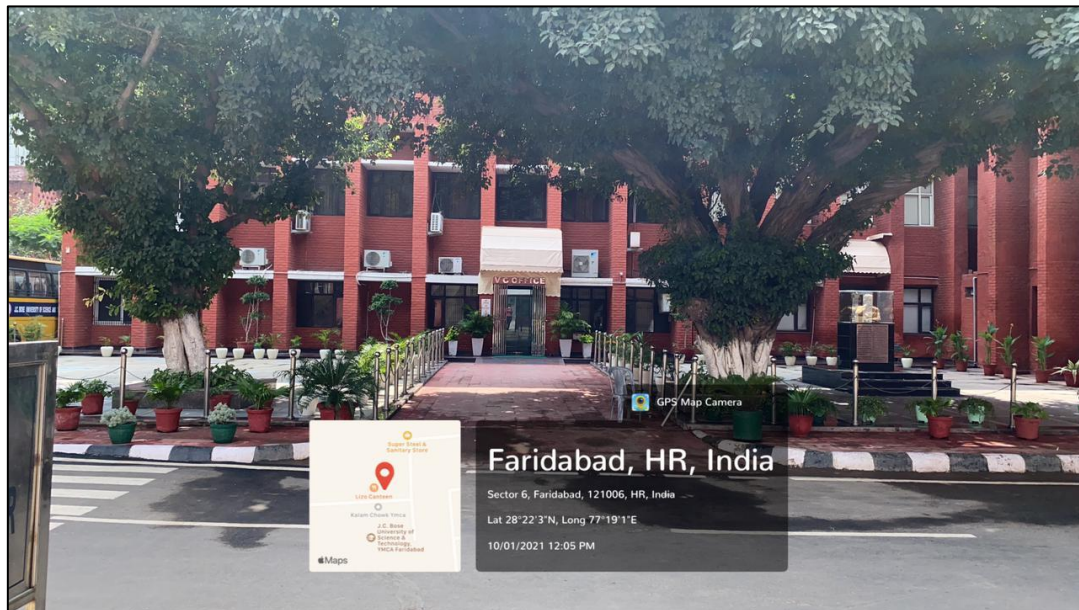

The campus is beautifully landscaped with trees and plants in the available space. Vasundhara Eco-club and NSS cell of University is actively engaged in the organization of

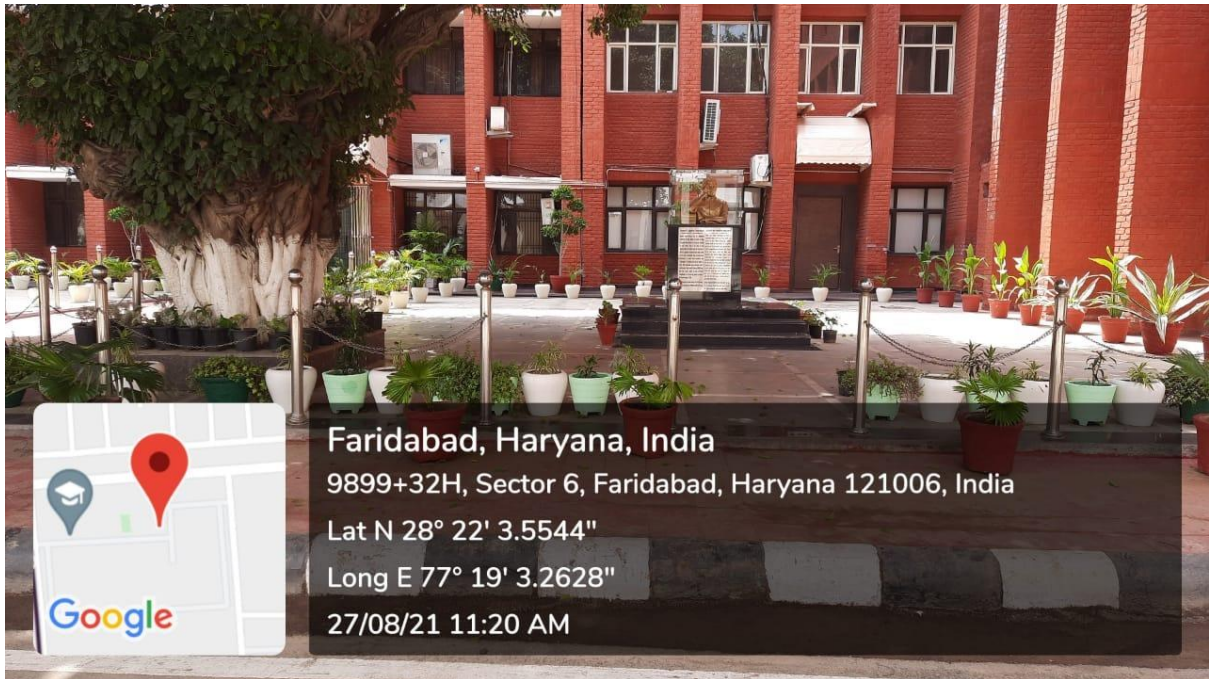

tree plantation on World Environment Day, Hariyali Parv and various awareness programs & events every year. A rich variety of flora and fauna predominates the natural landscape of the campus.

## Greenhouse:

<https://www.jcboseust.ac.in/green-house>

A Greenhouse has been developed at university to provide ideal environment to learn about variety of plant species including herbal, medicinal, succulents and xerophytes. The greenhouse provides a system for plant collection that serves the students, faculty and staff in the university. It helps the research scholars, undergraduate and postgraduate students for smooth running of the plant-based experiments.

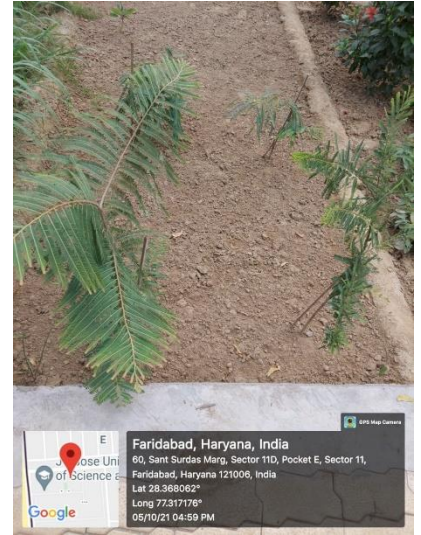

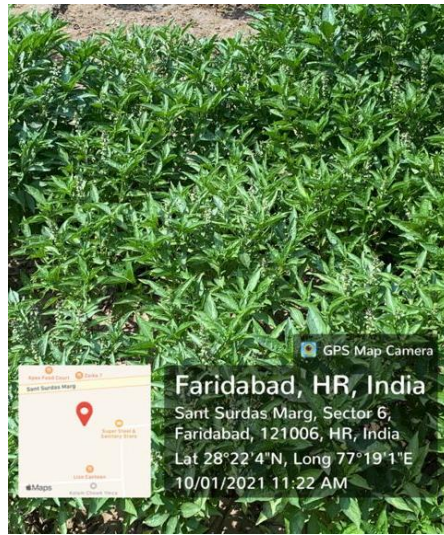

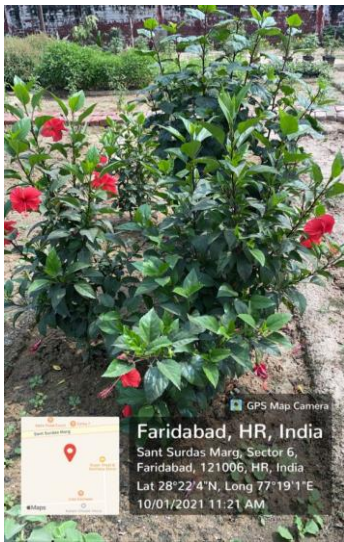

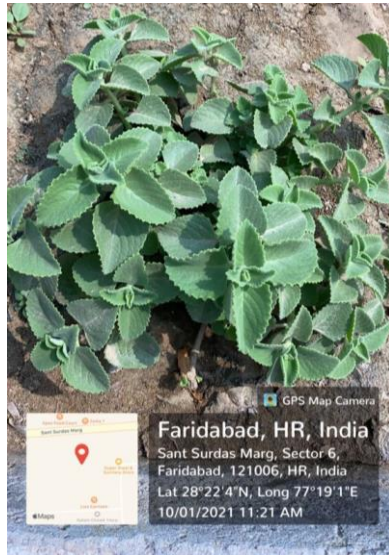

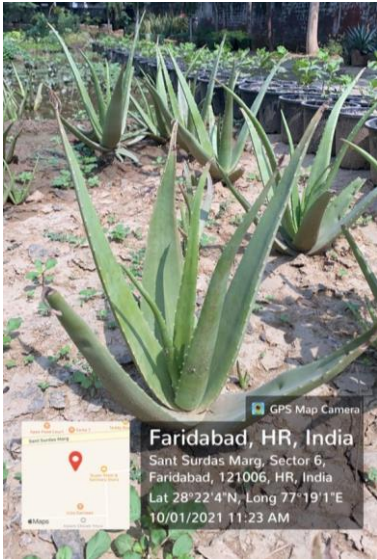

Greenhouse at University

## Herbal Garden:

University has a rich variety of herbal plants and trees. A herbal Garden containing medicinal plants and herbs of importance have been maintained at Horticulture area of the university. The students and staff get benefit from the herbal plants available as and when required.

Further, a small vegetable garden and Nursery has also been developed in the University horticulture area to cater the requirement of residential campus and office area.
