HACKATHON CONCLUDES AT VARSITY

Faridabad: The JC Bose University of Science and Technology, YMCA, Faridabad, organised a one-day event titled 'Chunauti-22: Solutions for smart India hackathon 2022 (SIH2022)'. The event was conducted by the institutions innovations council (IIC) in collaboration with the JC Bose Incubation Foundation at the university's incubation centre. Three teams were adjudged winners of Chunauti-22 based on their performance on four different criteria such as 'scale and complexity of the problem', 'Creativity and innovation of the solution', 'Probability of implementation', and 'Social, people and financial impact'. The first prize was won by team 'Etwizs' led by Ishita Saxena, which worked on providing a blockchain-based solution by hosting a blockchain code on the cloud network to create a prototype app in the healthcare sector for securing and sharing medical records while keeping their private information safe. Team 'Invincible' led by Harshika Vats won for their solution of record management and referring patients among hospitals saving time, money and hassles in the process, secured first runner-up and team 'Hopeless ideals' led by Himanshu was second runner-up respectively for their solutions aimed at solving the problem of providing secure authentication for UID-based services in remote areas where cellular networks are weak. A total of 12 teams reached the final round of event.
