STUDENTS URGED TO PLANT SAPLINGS

Faridabad: Students and staff of JC Bose University of Science and Technology, YMCA, have been urged plant saplings in order to reduce temperature and promote natural habitats for birds. Addressing a programme as part of a month-long plantation campaign initiated by the university, Additional District and Sessions Judge Dr Pankaj, who was the chief guest on the occasion, said the need for protection and conservation of environment and sustainable use of natural resources was reflected in the constitutional framework and also in international commitments of India. "The fundamental duties under the Constitution cast a duty on every citizen to protect and improve the natural environment, including forests, lakes, rivers and wildlife, and to have compassion for living creatures," he said. VC Prof SK Tomar said, "The university is celebrating the month of July as 'Hariyali Parv'. To mark this occasion, a mega plantation campaign has been initiated. Eminent personalities from all walks of life are being invited to participate in the campaign." TNS
