**FARIDABAD :** The week-long Short Term Training Program (STTP) on 'Emerging Research Areas in Big Data Computing' organised by the Department of Computer Engineering, J.C. Bose University of Science and Technology, YMCA, Faridabad concluded today. The programme was sponsored by the All India Council for Technical Education. The programme was attended by scholars and experts from the field of education, as well as industry professionals. The weekly program had been divided into three sessions per day. The theme of the concluding session was presented by Prof. S.K. Garg, Registrar of the University. In

the first two sessions of the event, Mr. Nitish Vig, a Data Scientist with Trejhora Pvt Ltd. spoke with the participants. The keynote session was conducted by Dr. Ravindra Kumar Soni, Adviser II, All India Council for Technical Education who was the chief guest of the concluding seminar. The Vice Chancellor of the University, Prof. Dinesh Kumar, presided over the event. In his address he highlighted the importance of education and how one

is never truly done learning. According to Prof. Kumar, the gap between technology and the learners should be skill based and all should benefit from recent innovations, and that the core idea behind this programme was to address modern trends and research areas in the field of Big Data Computing. Apart from this, he also told the participants about the benefits of STTPs in the teaching field. He ended his address by congratulating the organising committee for the success of the programme and hoped that more such events will take place in the future. Prof. Komal Kumar Bhatia, Chairperson, Department of Computer Engineering and Prof. Atul Mishra, Department of Computer Engineering acted as the programme coordinators.
