Department of Computer Engineering organized an expert lecture for B.Tech and M.Tech students on 26th Feb 2016. The lecture was given by Mr.Vipin Nader, Principal Product Manager with Oracle. Vipin Nader has been working in the Telecom domain for the last 12 years and he talked about:

- How the technology has shaped the world so far?
- History of networks, Transition from wireline to wireless (1G to 5G).
- How the new technologies outside the telecom domain are presenting challenges and what we do to solve those?
- IOT, Connected Cars, Connected homes etc.

He described that Internet of things which is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.The expert lecture was organized by Dr. Rashmi Popli

Department of Computer Engineering organized an expert lecture for B.Tech and M.Tech students on 17th March 2016. The lecture will be given by Mr. Deepak Saini and Anuj Saini. The expert lecture was on Building new generation Semantic Search Engine, Information extraction, Machine Learning, ontologies, rdf, inference engines. The expert lecture was organized by Dr. Rashmi Popli

Anuj Saini has been working in the Information Extraction domain for the last 15 years and he talked about:

- How the machine learning technology has shaped the world so far?
- History of inference engines and ontologies.
- How the new technologies outside the information extraction are presenting challenges and what we do to solve those?

Department of Computer Engineering organized an expert lecture for students of CE 7th Semester on 25th April 2016. The lecture was conducted by Ms. Charu Smita has close to 13 years of experience in Information Technology industry & has served Fortune 500 organizations like Prudential Financial (New Jersey) & IBM (US) & DBS (a leading public sector bank of Singapore), Telstra (Telecom Major - Australia), Dubai Health Authority to name a few. Currently working as a Project Manager & Leader – Transition & Transformation in IBM, Gurgaon.

The main focus of lecture Job Creation & to upskill engineering students (& fresh engineering graduates) with progressive technology trends, business skills, business English to enable them acquire the skills needed for present & future job roles. The expert lecture was organized by Dr. Rashmi Popli.
