### ACTIVITY REPORT

#### Name of Activity: Lecture Series 10

Name of Department conducting the activity	Electronics Engineering
Date of conduct	02/05/2023
Days of Activity	1 day
Nature of activity	Offline
Funded/ Sponsored by from(University/Industry/UGC/AICTE/DST/TEQIP/ OutsideSociety/agency/others(mention)(ifany)	Department of Electronics Engineering, J.C Bose University of Science & Technology, YMCA, Faridabad
Activity Coordinator/s	Dr. Nitin Sachdeva Ms. Sangeeta Dhall
Total Amount Spent	NIL
Target audience	Faculty Members, Research Scholars and PG Students of the Electronics department
Total No. of Registered Participants	NA
No. of Registered Participants from Other Institutions	Nil
No. of Registered Participants from Other Country	Nil
No. of Participants completing the program	18
No. of Expert/s during the program	01
Name of Expert/s	Dr. Preet Kaur

Detailed Activity Report	<p>The lecture was delivered by Dr. Preet Kaur on topic “Latest Trends in Design of Planar Antennas”. She has delivered her talk successfully by exploring the concepts of recent advances in the field of planar antenna design and their applications in various fields of research including space communication, mobile communication, wireless communication and wearable applications. Planar antennas are also used in medical applications including microwave imaging, medical implants, hyperthermia treatments, and wireless wellness monitoring. But, most of these applications still use bulky antenna systems which hamper their efficiency and applicability despite high application potential</p> <p>The faculty members, research scholars and PG students of the electronics department have attended this lecture.</p>
