Institution's Innovation Council (IIC 4.0) Activity Report

"Disruptive Technologies & Entrepreneurship" *Self-Driven Activity on Entrepreneurship/Start-ups*

Topic: Disruptive Technologies & Entrepreneurship

Activity Date and time: 9th May 2022, 11 am-12:00 pm

Mode (online/offline/Hybrid): Online

Student Participation: 89

Faculty Participation: 6

External Expert: Mr Amandeep Singh

Affiliation of Expert: Sr Business Manager, Grey Orange, Gurugram

Email ID: amandeep87singh@gmail.com

Mobile: +91 8130085570

Activity Coordinators: Dr. Jyotsana Chawla & Dr. Gunjan Gumber

Financial Expenditure (if Any): Rs. 3000/-

Objective of the event: To acquaint students with the skill, attitude and behavior of entrepreneurship by understanding the ways to deal with disruptive technologies and encourage start-up culture in the institution.

Event Report: The Institution's Innovation Council (IIC) of the University in association with Dean Students Welfare Office and Department of Management Studies organized a webinar on Disruptive Technologies & Entrepreneurship. This workshop was organized to acquaint students and faculty members with the essential skills required to deal with market dilemmas and act promptly to become successful entrepreneur and sustain their startups for longer duration. The speaker discussed about the boiling frog syndrome and suggested to respond quickly to the dynamic environment.

The session was organized on 9th May 2022 at 11 am on Zoom platform. Mr Amandeep Singh, Sr Business Manager, Grey Orange, was the expert resource person. He started the session by explaining why only a proportion of startups thrive and become successful. He further discussed the importance of understanding the impact of disruptions on entrepreneurs.

He discussed how Electronic Vehicles possess the capability to replace the existing fuel-based vehicles and how they have disrupted the competition level in this sector. He explained that entrepreneurs must have futuristic thinking, ability to cope with difficulties and a never give up attitude. He quoted

example of autonomous car, how technology is changing, and we are adopting robots to do our work. Does these companies have launched such autonomous cars without any research? The expert suggested to bring out any change or to adopt new technology we must first go for in depth research and then bring it into the market. For converting an idea into reality, we must work upon gathering information and must stay updated to respond to the disruptions observed in the market. The expert also exemplified the impact of solar PV's and its growth. He discussed how it is gaining momentum now a days and being an entrepreneur, we must focus upon the changes happening around us and act accordingly. The expert ended the session by discussing about some of the business getting disrupted in India and shared some lessons for the budding professionals. Overall, it was a fruitful and interactive session.

Activity Images:

The screenshot displays a Zoom meeting interface. On the left, a presentation slide titled "CLEAN DISRUPTION OF ENERGY & TRANSPORTATION" is visible, listing four items: 1. Energy Storage, 2. Electric Vehicles, 3. Self-driving Cars, and 4. Solar. A small book icon with the same title is shown next to the list. In the center, a video feed shows a man, Amandeep Singh (Sales), speaking. On the right, the "Participants (54)" panel is open, showing a "Waiting Room (1)" with one participant (20001301024...) and a "Joined (53)" list including the host and several co-hosts and participants.
