Road, Faridabad, Haryana, India**

2023-24

ABOUT THE PROGRAM

B.Voc in Banking Finance Services and Insurance (BFSI) is an undergraduate level course. BFSI program will train students in various aspects related to banking and its allied areas. The program covers topics such as – banking, finance, insurance, investment, risk management, computer application, IT and more. Banking sector is growing at a healthy pace in India. This sector is known to generate ample amount of job opportunities. Banking, Financial Services and Insurance (BFSI) is set to grow exponentially in India due to the rising per capita income, the introduction of new products, innovation in technology, expanding distribution, networking and increasing customer awareness of financial products. The demand of skilled professionals in this sector is ever increasing. Digital Technology has facilitated the recent surge in growth of this sector. Online payment systems, cashless transactions, mobile banking, internet banking – technology has changed the face and form of modern banking. As a result, modern banking professionals need to master IT skills and computer application.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

PEO1: To make students understand the different components of the Indian Financial System.

PEO2: To provide students with in-depth knowledge about working in different financial markets and institutions.

PEO3: To enable the student to analyze, classify, evaluate and control various types of risk in financial markets to make suitable financial decisions.

PEO4: To make students professionally comfortable with marketing and operational activities of financial markets and institutions.

PROGRAM OUTCOMES

- Skills in Banking & Financial Services.
- Skills in Mutual Funds, stock markets, Insurance, Chit funds, Micro Finance, etc.
- Skills in computer profession i.e. MS Office, MIS, Accounting packages, Database etc.
- Awareness about banking activities and banking to customers.

PROGRAM SPECIFIC OUTCOMES (PSOs)

To impart State-of-Art knowledge in the field of banking and finance and hand on application based practical training with regular academic and industry interaction.

BFSI-309 BUSINESS STATISTICS

B. Voc. (BFSI) III Semester

No. of Credits:				3
L	T	P	Total	
3	0	0	3	

Sessional:	25 Marks
Theory:	75 Marks
Total:	100 Marks
Duration of Exam:	3 Hours

Pre- Requisite: Nil

Course Objectives:

The objective of studying this course is to familiarize the students with various statistical data analysis tools that can be used for effective decision and developing the ability to conduct basic statistical analysis of data.

Course Outcomes: At the end of the course, the student shall be able to:

CO1. Understand the key terminology, concepts tools and techniques used in business statistical analysis.

CO2. Understand about the various ways of interpreting and presenting the data.

CO3. Conduct basic statistical analysis of data.

CO4. Solve a range of problems using the techniques covered.

Course Contents:

Unit1: Introduction to Statistics

Meaning, type, scope, limitations and applications; data classification, tabulation and presentation: meaning, objectives and types of classification, Tabulation: purpose, types and construction of tables, formation of frequency distribution tables, types and construction of diagrams and graphs.

Unit2: Measures of Central Tendency

Meaning and objectives of measures of central tendency, different measure viz. arithmetic mean, median, mode, geometric mean and harmonic mean, characteristics, applications and limitations of these measures

Unit3: Measures of Dispersion

Measure of variation viz. range, quartile deviation, mean deviation and standard deviation, co-efficient of variation, Skewness and Kurtosis.

Unit4: Correlation & Regression

Meaning of correlation, types of correlation – positive and negative correlation, simple, partial and multiple correlation, rank correlation, coefficient of determination, lines of regression, co-efficient of regression.

Text Books/ Reference Books:

BFSI-L-301 COMPUTATIONAL LAB-I
B. Voc. (BFSI) III Semester

No. of Credits:			2.5
L	T	P	Total
0	0	5	5

Internal:	30 Marks
External:	70 Marks
Total:	100 Marks
Duration of Exam:	02 Hours

Pre- Requisite: Nil

Course Objectives: The objective of this course is to demonstrate the basics of computer and its use in day-to-day life.

Course Outcomes: After the completion of this course, the students will be able to:

CO1 Understand about computer hardware and software

List of Experiment

PC Hardware:

1. Set date and time of the windows and change screensaver and appearance.
2. Manage files and folders.
3. To study parts of keyboard and mouse
4. To assemble a PC.
5. To remove and replace floppy disk drive, hard disk and CD ROM drive.

PC Software:

6. To prepare your CV using MS Word.
7. Create a mail merge letter using MS Word.
8. Create a macro for inserting a picture and formatting the text.
9. Create a simple presentation to list simple dos commands, hardware, and software using MS Power Point.
10. Add text, pictures, sounds, movies, and charts to your presentations.
11. Set up slide shows and rehearse timings for your slides.
12. Create a worksheet with 4 columns, enter 10 records and find the sum of all columns using MS Excel.
13. Create a student result sheet.
14. Create a simple bar chart to highlight the sales of a company for 3 different periods.
15. Create record and use macro in MS Excel.
16. Sorting and filtering of data
17. Create pivot tables and pivot charts.

BFSI-L-302 FINANCIAL ACCOUNTING LAB

B. Voc. (BFSI) II Semester

No. of Credits:	2.5	Internal:	30 Marks		
L	T	P	Total	External:	70 Marks
0	0	5	5	Total:	100 Marks
				Duration of Exam:	2 Hours

Pre- Requisite: NIL

Course Objectives: The objective of studying this course is to understand the concepts of tally and its uses, Creation of accounting and inventory masters, Passing vouchers for sales and purchases.

Course Outcomes: At the end of the course, the student shall be able to:

CO1 To understand the Computerized Accounting System

CO2 To understand the concept of Tally and recording of transactions in tally

CO3 To understand advanced accounting in tally

Vocational Practical

1. Basic accounting in Tally: Creation of company.

2. Creation of accounting and inventory masters.

3. Passing of different types of vouchers.

4. Understanding accounting and inventory reports, Balance sheet and Profit and loss account.

5. Advanced Accounting in tally: Combining inventory with accounts and passing vouchers for sales and purchases.

MAC-301 HUMAN VALUE AND PROFESSIONAL ETHICS

B. Voc. (BFSI) III Semester

No. of Credits:	3			Sessional:	25 Marks
L	T	P	Total	Theory:	75 Marks

MAC-303 ENVIRONMENTAL SCIENCE
B. Voc. (BFSI) III Semester

No. of Credits:	3	Sessional:	25 Marks		
L	T	P	Total	Theory:	75 Marks
3	0	0	3	Total:	100 Marks
				Duration of Exam:	3 Hours

Pre- Requisite: Nil

Course Objectives: The objective of studying this course is:

- ❖ To provide the students a detailed knowledge on the threats and challenges to the environment due to developmental activities.
- ❖ To identify the natural resources and suitable methods for their conservation and sustainable development.
- ❖ To focus importance of ecosystem and biodiversity for maintaining ecological balance.
- ❖ To learn about various attributes of pollution management and waste management practices.

Course Outcomes: At the end of the course, the student shall be able to:

- CO1 Get the information about ecosystem and also about its functions like Food chain, Ecological pyramids etc.
- CO2 Get the knowledge about the different types of resources like land, water, mineral and energy and also about the effects of environment by the usage of these resources.
- CO3 Gain the knowledge about the ecosystem diversity, its values and also about the importance of the endemic species and different techniques involved in its conservation
- CO4 Gain the knowledge about the different types of pollutions and their control technologies, Waste water treatment, Bio medical waste management etc.
- CO5 Get the complete information about EIA- Environmental Impact Assessment, Sustainable developmental activities, environmental policies and regulations, awareness among people about protection of wild life, forest and other natural resources.

Course Contents:

Unit 1: The Multidisciplinary Nature of Environmental Studies

Definition, scope and importance. Need for public awareness.

Unit 2: Natural Resources Renewable and Non-Renewable Resources

Natural resources and associated problems, Forest resources: Use and overexploitation, deforestation, case studies. Timber extraction, mining, dams and their effects on forests and tribal people. Water resources: Use and over-utilization of surface and ground water, floods, drought, conflicts over water, dams-benefits and problems. Mineral resources: Use and exploitation, environmental effects of extracting and mineral resources, case studies. Food resources: World food problems, changes caused by agriculture and overgrazing, effects of modern agriculture, fertilizer-pesticide problems, water logging, salinity, case studies. Energy resources: Growing energy needs, renewable and non- renewable energy sources, use of alternate energy sources. Case studies. Land resources: Land as a resource, land degradation,

man induced landslides, soil erosion and desertification. Role of an individual in conservation of natural resources. Equitable use of resources for sustainable lifestyles.

Unit 3: Ecosystems

Concept of an ecosystem Structure and Concept of an ecosystem, Structure and function of an ecosystem. Producers, consumers and decomposers, Energy flow in the ecosystem. Ecological succession. Food chains, food webs and ecological pyramids, Introduction, types, characteristic features, structure and function of the following ecosystem: a) Forest ecosystem b) Grassland ecosystem c) Desert ecosystem d) Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, and estuaries).

Unit 4: Biodiversity and Its Conservation

Definition: genetic, species and ecosystem diversity. Biogeographical classification of India. Value of biodiversity: consumptive use, productive use, social, ethical, aesthetic and option values. Biodiversity at global, National and local levels. India as a mega-diversity nation. Hot-spots of biodiversity. Threats to biodiversity: habitat loss, poaching of wildlife, man-wildlife conflicts. Endangered and endemic species of India. Conservation of biodiversity: in-site and ex-situ conservation of biodiversity.

Unit 5: Social Issues and Environment

From Unsustainable to Sustainable Development urban problems related to energy. Water conservation, rain water harvesting, watershed management. Resettlement and rehabilitation of people; its problems and concerns. Case studies, Environmental ethics: Issues and possible solutions. Climate change, global warming, acid rain, ozone layer depletion, nuclear accidents and holocaust. Case studies, Wasteland reclamation. Consumerism and waste products, Environment Protection Act. Air (Prevention and Control of Pollution) Act. Water (Prevention and Control of Pollution) Act, Wildlife Protection Act. Forest Conservation Act. Issues involved in enforcement of environmental legislation, public awareness.

BFSI – 404 ORGANIZATIONAL BEHAVIOR

B. Voc. (BFSI) IV Semester

No. of Credits:	3	Sessional:	25 Marks		
L	T	P	Total	Theory:	75 Marks
3	0	0	3	Total:	100 Marks
				Duration of Exam:	3 Hours

Pre- Requisite: Nil

Course Objectives: The objective of studying this course is to understand the behavior of humans at the workplace and implement the same in the formal working environment.

Course Outcomes: At the end of the course, the student shall be able to:

CO1. Understand the theoretical frameworks for OB.

CO2. Analyze the behavior of individual employees and its implications for the organization.

CO3. Developing a critical insight into group and team dynamics.

CO4. Interpret the influence of various organizational development and change on the behavior of the employees.

Course Contents:

Unit 1: Introduction to Organization Behavior

Concept, Scope, Importance and foundations of Organization Behavior, Theoretical frameworks for OB; Models of organizational behavior, Contemporary Challenges to OB in 21st Century, Motivation- Definition, Theories of motivation, Mc Gregor ,A.H. Maslow, Herzberg Theory.

UNIT -2: Group Dynamics and Organizational Culture

Types of Groups, Formation of Group, Reason for the group formation, Group Cohesiveness, Group Conflicts, Team Building; Individual Differences: Causes of Individual Differences. Organizational Culture: Definition, Characteristics of an organization's culture, types of culture, role of culture, Negative effects of culture.

UNIT-3: Perception and Conflict Management:

Perception: Concept, Perceptual selectivity, Managerial implications of Perception. Meaning, Process of Conflict, Types of Conflicts: - Individual, Group and Organizational Level conflict and conflict management. Change: Concept, Resistance to Change, Management of Change, Role of Change Agent, Stress – Causes, Effects and Coping Strategies.

UNIT – 4: Leadership & Personality

Leadership – Concept; Theories: Path Goal Leadership Theory, McGregor's Theory X and Theory Y, Charismatic Leadership; Transformational Leadership; Leadership Styles; types of leaders – autocratic, democratic, free – rein; Qualities of a good leader, Personality- Attributes of personality, Type, Ego state, Johari window, Theories of personality and factors affecting personality.

BFSI-411 INDIAN AND GLOBAL BUSINESS ENVIRONMENT

B. Voc. (BFSI) IV Semester

No. of Credits:				3
L	T	P	Total	
3	0	0	3	

Sessional:	25 Marks
Theory:	75 Marks
Total:	100 Marks
Duration of Exam:	3 Hours

Pre- Requisite: Nil

Course Objectives:

The objective of studying this course is to understand the Indian business environment and the various factors which impact it and implement that knowledge in the practical aspect.

Course Outcomes: At the end of the course, the student shall be able to:

CO1: Understand the nature of business environment & its components.

CO2: Demonstrate and develop conceptual framework of business environment.

CO3: Understand tariff and non-tariff barriers and FDI trends in India

CO4: Integrate the concept of foreign trade, BOP, multiple trade policy and multilateral route (WTO).

Course Contents:

Unit 1: Introduction to Business environment

Introduction to Business Environment: Nature and Significance Business Environment. Components of Business Environment, Techniques of Environment Scanning. Economic Environment of Business: Economic Systems. Economic Planning in India, Brief idea of Industrial Policy, Fiscal policy, Monetary policy.

Unit 2: Political and Legal Environment of Business

Three political institutions: Legislature, Executive and Judiciary. Foreign Exchange Management Act (FEMA), Consumer Protection Act. Introduction to Liberalization, Privatization and Globalization: Factors facilitating and impeding globalization in India.

Unit 3: Global Environment

Global Environment -Characteristics and Components, Tariff and non-tariff barriers; India's foreign trade policy, Foreign direct investment (FDI) and Foreign portfolio investment (FPI); Types of FDI, Costs and benefits of FDI to home and host countries; Trends in FDI; India's FDI policy, Balance of payments (BOP): Importance and components of BOP.

Unit 4: International Economic institutions

International Economic institutions: IMF, World Bank, UNCTAD, World Trade Organisation (WTO): Functions and objectives of WTO; Agriculture Agreement; GATS; TRIPS; TRIMS

BFSI-412 FINANCIAL MANAGEMENT

B. Voc. (BFSI) IV Semester

No. of Credits:				3
L	T	P	Total	
3	0	0	3	

Sessional:	25 Marks
Theory:	75 Marks
Total:	100 Marks
Duration of Exam:	3 Hours

Course Objectives:

The objective of studying this course is to understand the concept of finance and finance management, role of finance managers in taking various financial decisions. The course will enlighten various financial theories and practices used to achieve financial objectives.

Course Outcomes: After completing the course, the student will be able to:

CO1. Understand the concept of financial management and various source of finance.

CO2. Analyze capital budgeting process and apply capital budgeting techniques for making business decisions.

CO3. Examine capital structure and cost of capital.

CO4. Critically examine various theories of dividend, identify and analyse dividend policy; and suggest sound dividend policy.

UNIT I: Introduction

Nature, scope, and importance of financial management. Objectives of financial management: profit Maximization vs. wealth maximization. Approaches to financial management. Finance decision, Functions and Responsibilities of a Finance Manager. Sources of Finance: Different Sources of Finance including internal as well as external sources. Time value of money: Concept, rationale & Techniques.

UNIT II: Capital Budgeting Decisions:

Capital Budgeting: Meaning, definition, features and Process, Determination of cash flow, Capital budgeting methods: Payback Period Method, Discounted Payback Period Method, Accounting Rate of Return, Net Present Value (NPV), Internal Rate of Return (IRR), and Profitability Index.

UNIT III Components of cost of capital:

Method for calculating cost of different sources of raising capital: Cost of Equity, Cost of Retained Earnings, Cost of Debt and Cost of Preference Capital, Weighted Average Cost of Capital (WACC). Capital Structure Theories: NI, NOI, traditional and M-M theories.

UNIT IV Other Crucial Financial decisions:

Dividend policy and dividend decision theories - Walter's Model, Gordon's Model, MM Approach, Determinants of Dividend policy. Working Capital decision: Concept of Working Capital, Operating Cycles, determinants and Working capital estimation, Inventory Management and Receivables Management.

Text Books/ Reference Books:

BFSI-413 INSURANCE OPERATIONS AND REGULATIONS

B. Voc. (BFSI) IV Semester

No. of Credits:				3
L	T	P	Total	
3	0	0	3	

Sessional:	25 Marks
Theory:	75 Marks
Total:	100 Marks
Duration of Exam:	3 Hours

Pre- Requisite: Nil

Course Objectives:

The objective of studying this course is to understand the concepts of insurance and different types of life insurance products and regulatory requirements regarding life insurance products.

Course Outcomes: At the end of the course, the student shall be able to:

- CO1 Compare and contrast the types of insurance product available in the market.
- CO2 Explain the legality and administrative issues of insurance policies
- CO3 Apply the insurance knowledge and skills in different scenarios
- CO4 Interpret the regulatory and documentation framework governing insurance

Course Contents:

Unit1: Introduction of Insurance

Definition, characteristics, need & importance of insurance, Functions of insurance, kinds of insurance, insurance contract and its elements, Principles of Insurance, Principle of utmost Good Faith, Insurable Interest, Indemnity, Subrogation: Co-insurance, Reinsurance, Bancassurance, Contemporary issues in insurance, Individual Agents vs. Corporate Agents.

Unit2: Life Insurance- Practices and Procedure

Features of life insurance, Classification of policies: whole life, term insurance, endowment insurance, Annuities, Selection of risk, Measurement of risk and mortality table, calculation of premium, treatment of substandard risk, the reserve, investment of funds, surrender value, valuation and surplus, policy condition, Life insurance underwriting, Health insurance

Unit3: General Insurance- Practices and Procedure

Marine Insurance: Nature of marine insurance, marine insurance policies, marine losses, payment of claims. Fire insurance: nature and use of fire insurance, types of covers, claims, Medical Insurance, Agricultural insurance, motor insurance, Travel Insurance, liability insurance, aviation insurance; Underwriting and rating in general insurance.

Unit4: Regulatory framework of insurance business in India

Development of Insurance Legislation in India: Insurance Act, 1938, Insurance Regulatory and Development Authority of India Act, 1999, Life Insurance Corporations act 1956, General Insurance Council (GIC act 1972), Protection of Policyholders Interest: Insurance Ombudsmen Rules, 2017, Consumer Courts.

Text Books/ Reference Books:

1. Principles of Insurance Law, M. N. Srinivasan, Wadhwa & Co.
2. Insurance Manual, Taxman Publication Private Limited
3. Insurance law and practice, The Institute Of Company Secretaries Of India
4. Insurance principle and practices, M.N. Mishra, S.B. Mishra, S. Chand Publication

BFSI-L-401 COMPUTATIONAL LAB-II

B. Voc. (BFSI) IV Semester

No. of Credits: 2.5			
L	T	P	Total
0	0	5	5

Internal:	30 Marks
External:	70 Marks
Total:	100 Marks
Duration of Exam:	2 Hours

Course Objectives:

The objective of this course is to explain different terminology and the instructions of tally and advance excel.

Course Outcomes: After the completion of this course, the students will be able to:

- CO1 Understand the common internet terminology.
- CO2 Discuss the concept of different types of networks.
- CO3 Discuss tally ERP 9 and advance excel. .

Topics to be discussed:

1. Computer network: Advantages of Networking, Types of Networks, Clients and Servers,
2. Modem and classification of Modem
3. Internet, application of Internet, Types of Connection and Internet Protocols
4. Prerequisites for the Internet, factors affecting the speed of Internet Connectivity
5. Common Internet Terminology: World Wide Web, Website, URL, HTML, HTTP & HTTPS
6. Internet Surfing: Web Browser, Search engines, Toolbars of the Internet Explorer, E-mails
7. Internet security and Countermeasures: Virus, Hacking, Spamming, online data and identity theft, Phishing, E-mail Scams, Protection Methods
8. Cyber Crimes & its Types
9. Information Technology Act-2000 & its Amendments
10. Basics of Tally ERP 9
11. **Advanced Excel**

BFSI-L-402 INSURANCE OPERATIONS LAB

B. Voc. (BFSI) IV Semester

No. of Credits:	2.5	Internal:	30 Marks		
L	T	P	Total	External:	70 Marks
0	0	5	5	Total:	100 Marks
				Duration of Exam:	2 Hours

Pre- Requisite: Basic knowledge of insurance terms.

Course Objectives:

The objective of this course is to demonstrate the basic operations of insurance companies and to understand various types of products offered by them.

Course Outcomes: After the completion of this course, the students will be able to:

- CO1 Understand the operations of Insurance companies
- CO2 Understand the application and documentation process
- CO3 Understand the legal framework & regulatory requirement of insurance companies
- CO4 Learn the applicability of different Insurance products in different situations

Vocational Practical

1. Understanding of IRDA and its functions
2. Process of buying any insurance policy and premium calculation.
3. Application Form and documents requirement for the various policies.
4. Policy Document/Structure of a policy.
5. Procedure of Claim settlement in the account of Insured.
6. Nomination & Assignment
7. Understanding of Nomination Facility and settlement of claims in accounts of Deceased Persons.
8. The role of Insurance Authority regarding the complaint handling and its process.
9. Role of Actuaries: Underwriting, rating, premium determination
10. Topic related case studies

OEC-401: ENTREPRENEURSHIP

B. Voc. (BFSI) IV Semester

No. of Credits:	3		
L	T	P	Total
3	0	0	3

Sessional:	25 Marks
Theory:	75 Marks
Total:	100 Marks
Duration of Exam:	3 Hours

Pre- Requisite: Communication Skills, soft skills.

Successive: Business and Industrial management.

Course Objectives: The objective of studying this course is that the students acquire necessary knowledge and skills required for organizing and carrying out entrepreneurial activities, to develop the ability of analyzing and understanding business situations in which entrepreneurs act and to master the knowledge necessary to plan entrepreneurial activities.

Course Outcomes: At the end of the course, the student shall be able to:

- CO1 Apply the concepts of entrepreneurship development and significance of entrepreneurship in economic development.
- CO2 Understand the key skills required to develop an entrepreneurial business.
- CO3 Understand the role of entrepreneurs in society and business development.
- CO4 Acknowledge the support available from the Government to start a new venture.

Course Contents:

Unit 1: Entrepreneurship and Entrepreneur

Entrepreneurship: Concept and process, Entrepreneur vs manager, Essential Characteristics of a good Entrepreneur, Types of entrepreneurs, Types of Entrepreneurial firms, Need and Importance of Entrepreneurship, Entrepreneurial Mindset.

Unit 2: Key Skills for successful Entrepreneurship

Leadership: leadership styles, Lead by example, Team Spirit, Emotional Intelligence, Problem Solving by Critical Thinking: Applying critical thinking, REASON Model of Critical Thinking. Problem solving by Creative thinking, Importance and benefits of Creative thinking,

Unit 3: Serving the Society

Roles of Entrepreneurs in society, Selfless Entrepreneurship, Factors affecting entrepreneurial business, Business Networking and its advantages, entrepreneurial work ethics, Success Story of Mumbai Dabbawala and Steve Jobs (Discuss more Success failure stories of famous entrepreneurs)

Unit 4: Regulatory and Legal Issues in Entrepreneurship

Introduction to start-up's, Role of District Industries Centre in setting up industry, Function of NSIC, SISI, NISIET, NRDC, SSIC, SIDO, NMTC, KVIC, RSMML, Business Loans for start-ups and MSMEs by Indian Government, Legal Issues: Intellectual Property Rights, patents, trademarks, copyrights, trade secrets, licensing, franchising.

Text Books/ Reference Books:

1. Khanka S.S., "Entrepreneurship Development" S. Chand
2. C.V. Bakshi, Entrepreneurship Development, Excel Publications.
3. Drucker, Peter. "Innovation and Entrepreneurship" Heinemann, London.
4. Arora M., Natarajan K. and Gordan E., Entrepreneurship Development, 1st ed; Himalaya Publishing House Pvt Ltd, 2009.

OEC-402: TRENDS IN TECHNOLOGY
B. Voc. (BFSI) IV Semester

No. of Credits:	3	Sessional:	25 Marks		
L	T	P	Total	Theory:	75 Marks
3	0	0	3	Total:	100 Marks
				Duration of Exam:	3 Hours

Course Objectives: The objective of studying this course is to make aware student the changes in technologies, applications and Systems around us.

Course Outcomes: At the end of the course, the student shall be able to:

- CO1 Familiarize with the central concepts in innovation.
- CO2 Learn about critical digitalized components.
- CO3 Know about the future trends based on technology outlooks – where are we now and where are we heading.
- CO4 Critically analyze, even practice “how to enable” innovation.

Course Contents:

Unit 1: E-Commerce

Introduction: E-commerce as Business need-commerce, Types, Advantages, Disadvantages, e-Commerce Architecture; Internet Payment Systems, Characteristics, 4C Payment Methods, SET Protocol for Credit Card Payment, E-Cash, E-Check, Overview of Smart Card,

Unit 2: E-mail & Internet

Introduction to E-mail Account & Its Functions, Search Engine, Surfing Web Pages, Basics of Social Networking Site.

Unit 3: E-Banking Transactions

Inter-Banking, Intra-Banking, Electronic Payments, Payment Gateway Example, Securities in E-banking (SSL, Digital Signatures – Examples), Services Provided: ATM, Smart Card ECS (Electronic Clearing System), e.g., Telephone, Electricity Bills.

Unit 4: E – Governance & E – Agriculture

E –Governance Models: (G2B, G2C, C2G, G2G), Challenges to E – Governance, Strategies and tactics for implementation of E – Governance, Types of Agriculture information (Soil, Water, Seeds, Market rate) & Technique dissemination, Future trade marketing, Corp Management, Query redresses System, (Information Kiosk, IVR, etc.), Case Study.

Unit 5: E-learning

Models WBT, CBT, Virtual Campus, LMS & LCMS, Video Conferencing, Chatting Bulletin, Building Online Community, Asynchronous / Synchronous Learning, Case Study.

Text Books/ Reference Books:

1. Internet (Use of Search Engines Google & yahoo etc.).
2. E-Commerce: C.V.S. Murty.
3. Fire Wall and Internet Security: William Cheswick, Stevens, Aviell, Rubin.
4. The Essential Guide to Knowledge management: Amrit Tiwana.
5. The GIS Book: George B. Karte.

OEC-403: WASTE MANAGEMENT

B. Voc. (BFSI) IV Semester

No. of Credits:	3	Sessional:	25 Marks		
L	T	P	Total	Theory:	75 Marks
3	0	0	3	Total:	100 Marks
				Duration of Exam:	3 Hours

Pre- Requisite: Nil

Course Objectives: The objective of studying this course is to:

- ❖ Introduce about Sources of solid and hazardous wastes.
- ❖ Study about Waste exchange.
- ❖ Understand storage and collection of municipal solid wastes.

Course Outcomes: At the end of the course, the student shall be able to:

- CO1 Learn various source of the solid waste.
- CO2 Improve understanding handling of waste.
- CO3 Acquire knowledge about steering and suspension system.
- CO4 Understand Disposal in landfills.

Course Contents:

Unit 1: Sources, Classification and Regulatory Framework

Types and Sources of solid and hazardous wastes - Need for solid and hazardous waste management – Elements of integrated waste management and roles of stakeholders - Salient features of Indian legislations on management and handling of municipal solid wastes, hazardous wastes, biomedical wastes, lead acid batteries, electronic wastes, plastics and fly ash – Financing waste management.

Unit 2: Waste Characterization and Source Reduction

Waste generation rates and variation - Composition, physical, chemical and biological properties of solid wastes – Hazardous Characteristics – TCLP tests – waste sampling and characterization plan - Source reduction of wastes –Waste exchange - Extended producer responsibility - Recycling and reuse Practical: Composition of MSW, Determination of Physical and Chemical Properties of MSW.

Unit 3: Storage, Collection and Transport of Wastes

Handling and segregation of wastes at source – storage and collection of municipal solid wastes – Analysis of Collection systems - Need for transfer and transport – Transfer stations Optimizing waste allocation– compatibility, storage, labeling and handling of hazardous wastes – hazardous waste manifests and transport.

Unit 4: Waste Processing Technologies

Objectives of waste processing – material separation and processing technologies – biological & chemical conversion technologies – methods and controls of Composting - thermal conversion technologies, energy recovery – incineration – solidification & stabilization of hazardous wastes- treatment of biomedical wastes

Unit 5: Waste Disposal

Waste disposal options – Disposal in landfills - Landfill Classification, types and methods – site selection - design and operation of sanitary landfills, secure landfills and landfill bioreactors – leachate and landfill gas management – landfill closure and environmental monitoring – Rehabilitation of open dumps – landfill remediation.

Text Books/ Reference Books:

1. George Tchobanoglous et al, "Integrated Solid Waste Management", McGraw - Hill, 2014.
2. Manual on Municipal Solid waste Management, CPHEEO, Ministry of Urban Development, Govt. Of. India, New Delhi, 2000.
3. TchobanoglousThiesenEllasen; Solid Waste Engineering Principles and Management, McGraw - Hill 1997.

BFSI-512 LEGAL ASPECTS OF BUSINESS

B. Voc. (BFSI) V Semester

No. of Credits:			3
L	T	P	Total
3	0	0	3

Sessional:	25 Marks
Theory:	75 Marks
Total:	100 Marks
Duration of Exam:	3 Hours

Course Objectives:

The objective of studying this course is to enable a student to have good knowledge in the Corporate Laws which is important for future managers. It gives an opportunity to students to know about the procedure of creation of a company or getting it registered.

Course outcomes: After the successful completion of the course, students will be able to:

1. Understand the legal framework regulating business, from the point of view of making the operations of the organization legally compliant.
2. Develop a critical understanding of the implications of the changes in the provisions of different business law and assess their impact.
3. Develop suitable adjustment strategies according to business law.

Course Content:

UNIT 1: Introduction to Law & Law of Contract

Meaning Purpose and Sources of Law, Classification of Law: National and International Laws, The Indian Contract Act: essentials of a valid contract, kinds of contracts, void agreements (expressly declared void), Performance of contracts, Discharge of contracts, Breach of contract and its remedies, Quasi-contracts.

UNIT 2: Laws for Corporates

The Companies Act, 2013 - characteristics and types of companies; Incorporation of a company, Memorandum and Articles of Association; Director's powers and duties, Types of meetings in a company, Winding up of a company.

Negotiable Instruments Act: nature and types of negotiable instruments, parties to negotiable instruments, dishonour and discharge of a negotiable instrument, crossing and bouncing of cheques. (Discuss suitable case laws)

UNIT 3: Laws Specific to Banking, Finance and Insurance:

SARFESI Act, 2002 (securitization and reconstruction of financial assets and enforcement of Security Interest Act): Purpose, Introduction and risk management in securitization, Debt recovery tribunals: objectives and purposes, Prevention of Money Laundering Act, 2002, Insurance Contract.

UNIT 4: Other important Acts:

Consumer Protection Act, 2019; Competition Act 2002 - objectives, competition commission of India; Right to Information Act, 2005: Purpose of Right to Information and Obligation of Public Authorities, Exemption from disclosure of information. (Discuss suitable case laws)

Text Books/ Reference Books:

1. Business legislation for management M.C. Kuchal and Deepa Prakash, Vikas Publishing House PVT Ltd.
2. Kuchhal, M.C. and Kuchhal Vivek, Business Legislation Management, Vikas Publishing, New Delhi.
3. Kapoor, N. D. (2009). Elements of Mercantile Law, Sultan Chand & Sons, New Delhi.

BFSI-513 BUSINESS RESEARCH METHODS

B. Voc. (BFSI) V Semester

No. of Credits:				3
L	T	P	Total	
3	0	0	3	

Sessional:	25 Marks
Theory:	75 Marks
Total:	100 Marks
Duration of Exam:	3 Hours

Course Objectives:

The objective of studying this course is to understand various research methods and tools. The focus will be on process and techniques of research.

Course Outcomes: At the end of the course, the student shall be able to:

CO1: Learn about various kinds of research, objectives of doing research, research process, research designs and sampling.

CO2: Understand and apply basic research methods including research design, data analysis, and interpretation.

CO3: Use research data to formulate or evaluate new research questions, using reason and persuasion in a logical argument

Course Content:

UNIT 1: Introduction to Research

Meaning, Objectives and types of research, Features of a Good research, Understanding the language of research - Concept, Construct, Definition, Variables: Concept of Independent & Dependent variables, Research Process, Writing a research proposal.

UNIT 2: Research Design and Sampling:

Features of a good research design – Exploratory Research Designs, Descriptive Research Designs, Experimental Design, Sampling: meaning of sample and census, features of a good sample, Sampling Techniques: Probability and Non Probability Sampling design; Determination of Sample size.

UNIT 3: Data Collection and Questionnaire Development:

Types of data: Primary vs secondary data, Sources of data collection, tools for Primary Data Collection: Observation method, Focus Group Discussion, Personal Interview, Telephonic Interview, Mail Survey, Email/Internet survey, Questionnaire Designing; Advantages and Disadvantages of Questionnaire Method. Types of Questionnaires and questions.

UNIT 4: Data Analysis and Report Writing

Univariate and Bivariate Analysis of Data, Hypothesis testing; parametric and non-parametric tests for data analysis. Research Report Writing: steps in report writing, Essential of a good report, Ethics in Research.

Text Books/ Reference Books:

1. C.R. Kothari, Research Methodology, New Age International.
2. V P Michael, Research Methodology in Management, Himalaya, Mumbai

BFSI- 507 CREDIT RISK MANAGEMENT

B. Voc. (BFSI) V Semester

No. of Credits:	3	Sessional:	25 Marks		
L	T	P	Total	Theory:	75 Marks
3	0	0	3	Total:	100 Marks
				Duration of Exam:	3 Hours

Course Objectives:

The objective of studying this course is to understand the concepts of credit risk in the banking industry and how to avoid and mitigate credit risk of the banking industry.

Course Outcomes: At the end of the course, the student shall be able to:

CO1: Learn about credit risk and how to mitigate it.

CO2: Understand the appraisal technique before granting a loan

CO3: Understand the role of banker to reduce the credit risk.

Course Content:

Unit1: Introduction and overview of credit

Principles of lending, Model credit policy, Types of borrowers: major, minor, HUF, limited and holding company, registration of charges, limited liability partnership, Credit delivery: types of facility, modes of delivery, Credit appraisal: dimension of credit appraisal ,six c's, , Credit rating.

Unit2: Analysis of financial statements

Balance Sheet analysis, analysis of profit and loss account, ratio analysis: different kinds of ratios, interpretation of important financial ratios, fund flow statement, cash flow statement, Project and term loan appraisal: technical appraisal, financial appraisal etc. cost of production and profitability, Capital budgeting: payback period method, time value of money, net present value, IRR, Life of the project.

Unit3: Working capital management
